Finding the right location

Background

Best place for your business?

Martin Bloomberg, a location expert, says it's very important to get information about the location for your business. You must find out:

- are there other businesses in the area with the same product?
- are there a lot of people living near your business?
- is there car parking?
- is there public transport nearby?

Before you find a location you need to ask local people about the area. If you don't do this, you could lose a lot of money!

Discussion

- 1 What must you find out about the area before you buy an office or shop?
- 2 Why?
- 3 Where's your company? Is it in a good location for customers / staff / business?

Task

You have a sandwich bar in your town. Business is good. You want to open another sandwich bar, but you don't know where. You have contacts in three other towns. They have information about three sandwich bars for sale in these towns.

- 1 Work in groups of three. Read about one of the locations. Student A, turn to File 08 on page 104. Student B, turn to File 35 on page 111. Student C, turn to File 56 on page 116.
- 2 Take turns to present your location to your group. While you listen to other members of your group, complete the table for their locations.
- 3 In your groups, choose one location for your sandwich bar.

In 2002, each item needed 4 pieces of paperwork including an **order form** from the customer, an **invoice** to bill the customer, and a **delivery note** and **receipt** for when the item was delivered. Designing the perfect workspace

Background

New offices for PFIZER

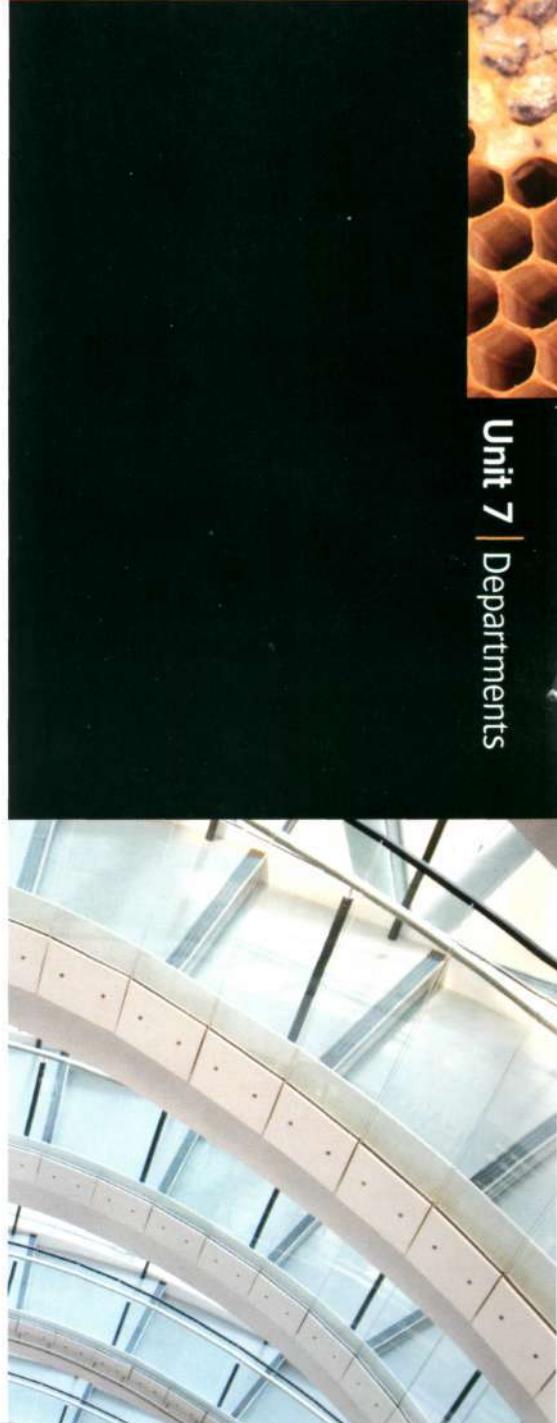

In 2005, the Czech branch of the pharmaceuticals company, Pfizer, moved into its new offices. The original offices didn't have many meeting spaces, so it was difficult for teams and departments to work well together. The new offices are a better place for teams and communication. Inside, there are a lot of open spaces for employees to meet and talk: coffee areas, meeting rooms, etc. The staff cafeteria seats 100 people and has a garden which can be used for meetings too. The offices, though, are small, so people can concentrate when they need to. Communication between the departments was also very important. So the Medical, Marketing, and Sales Departments are connected by stairs and small meeting areas between the floors. Altogether, the new offices are a comfortable place to work, with a balance of open spaces for good communication, and small spaces for individual work.

Discussion

- 1 How are Pfizer's new offices different from the old ones?
- 2 Do the staff work in big or small offices?
- 3 How does the design help departments to work together?
- 4 What is your workspace like? Do you have a lot of open spaces? Are the different departments well located?

Task

- 1 Work in small groups. Talk about your company. Who is responsible for what? Who works with who? Who needs to communicate with who? How is your office / department designed?
- 2 Design your perfect office or workspace so everyone can do their job well and communicate easily with their colleagues.
- 3 Present your new workspace to the rest of the class.

Making a supermarket competitive

Background

Shopping around

Competition between supermarkets is very strong. In the UK there are four major supermarkets and Morrisons is number four. The image of Morrisons is low prices, a wide range of food, and friendly staff.

Tesco, the number one supermarket, has small shops in towns and big shops outside towns. It also has a healthy eating range of food and a loyalty card for regular customers. Tesco sells non-food products too like TVs, washing machines, and furniture.

Sainsbury's has an expensive image, but it has some economy products, and with the help of English chef, Jamie Oliver, more people shop there now. It has many 'green' and fair-trade products too, and quality is very important. Sainsbury's trains all its staff to know more about its products.

Discussion

- 1 What do the three supermarkets do to stay competitive?
- 2 Which supermarket do you shop at? Why do you go there?
- 3 Which points in the text are important for you when you shop at a supermarket?

Task

- 1 You work for Morrisons. You need to find ways to improve its competitiveness. Work in groups of four, and divide into Pair A and Pair B. Read your information below.

Pair A

You work in the team for product selection. What changes can you make so Morrisons is more competitive? Make a list of five ideas. Think about

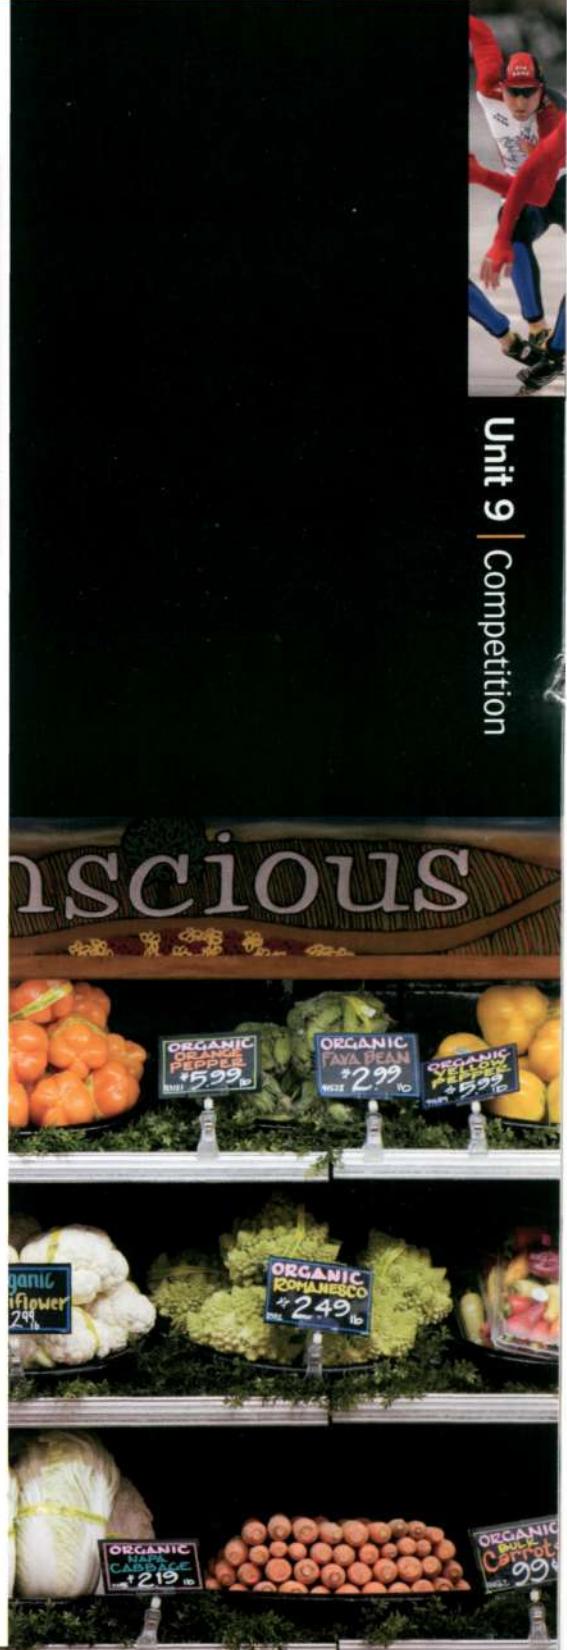

- | | |
|-----------------|--|
| • Product range | • Where do your products come from? |
| • Product price | • Why do / don't you buy certain products? |

Pair B

- | | |
|--------------------|---|
| • Staff training | • Company image |
| • Staff experience | • What image is good for a supermarket? |

- 2 Now hold a meeting and present your ideas to the other pair. Decide on five ideas you want to keep.
- 3 Turn to File 21 on page 108 to read what Morrisons did. How do your ideas compare?

Changing the way you work

Background

Team spirit

SEI is based in Pennsylvania. The building has no fixed offices, only office furniture on wheels so it can be moved to where someone wants it. This is to help people to work in teams. In fact, there are no levels of management, no secretaries – only team leaders and teams.

Some teams are permanent so they can work with an important client and offer a single contact for that client. Some teams get together to solve a temporary problem, and then stop when the job is finished. Employees can be members of two or three different teams. They do what they are good at, and sometimes they lead a team, sometimes they are a team member. The important thing is that they are flexible. They must also be happy to work on different projects at the same time and be well organized.

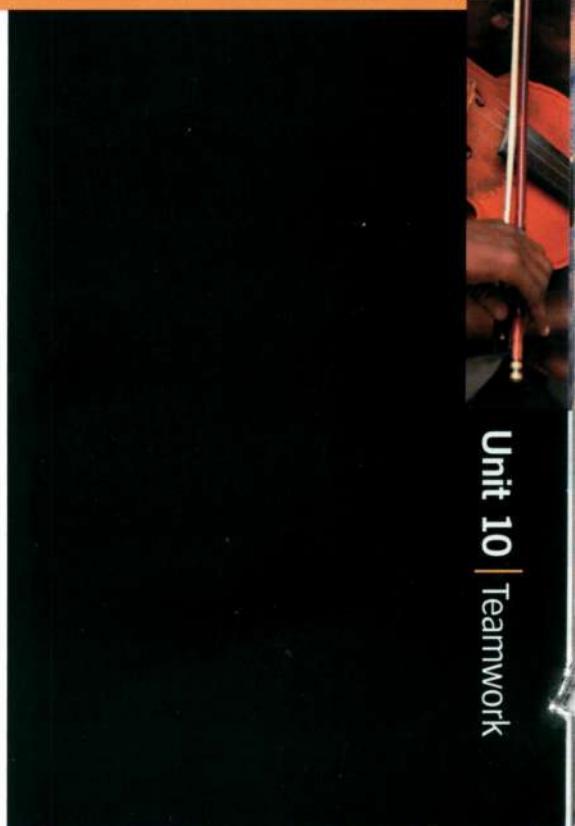

Discussion

- 1 Do staff at SEI have their own offices?
- 2 How many teams do they work in?
- 3 Which roles do not exist at SEI?
- 4 Would you like to work in a company with this structure? Why / why not?
- 5 Do you think it is possible for your company to have this structure?

Task

You work for a company with a similar structure to SEI. There are several new projects that need teams to work on them. Each project needs a team leader and some team members.

 - 2 A new brochure to advertise your services to companies.
 - 3 A research project to look into possible new markets.
 - 4 The annual staff party.
- 1 Work with a partner. Talk about each project and the people they need.

 - 2 Now join another pair and share your ideas. Decide which of you are working on each project. How many projects are you working on? What other people do you need for each project?
 - 3 Do you like this way of working? Is it an easy / successful way to work?

- 2 What service does the company offer?

Tour guides on the run

On your next business trip, **are you going to have** any time for sightseeing? Probably not. Even when it's a famous destination, most business travellers **aren't going to see** outside the airport, hotel, or conference room. But City Running Tours has the solution. Go for a run with a tour guide across the city and see all the local places of interest before breakfast. The company now offers tours of Charleston, Chicago, New York, San Diego, and Washington. It is now so popular with business travellers, that **they're going to offer** the service in even more cities in the future.

2 Look at the phrases in **bold** from the article in 1. Are they about the past, present, or future? Do they talk about a general plan or a specific arrangement?

Organizing a business trip

Background

The professionals' travel agent

Strand travel agents specialize in organizing business travel. They provide companies with a complete service from booking flights and train travel to getting passports and visas, as well as arranging evening entertainment and much more. They also search for locations for conferences and other events. Using a travel company to arrange all business travel means companies often get better prices for trips because the travel specialists have contacts that an individual company doesn't have, so they can often get cheaper deals.

Discussion

- 1 Why do companies use Strand?**
- 2 What are the advantages or disadvantages of this?**

Task

This company is planning a training event for its staff. It wants Strand to find some options for accommodation.

EuroStamp Sales Training – Istanbul.

12 Schedules

Learning objectives in this unit

- Talking about schedules
- Talking about recent past actions
- Saying when something happens
- Saying dates
- Planning a schedule

Activity

- The revision game

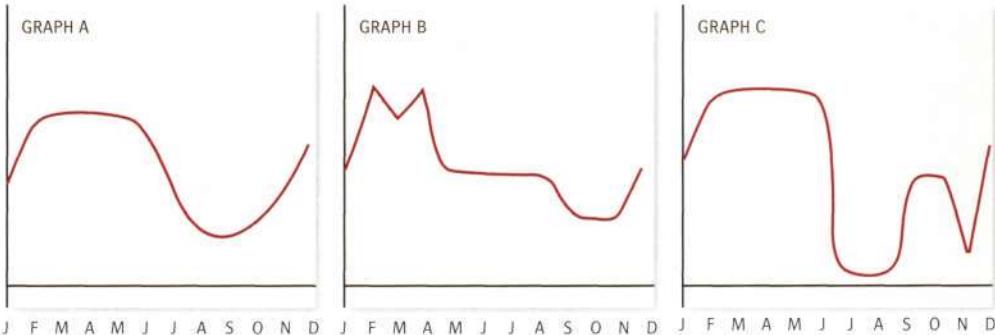

Starting point

- 1 What's your busiest month?
- 2 Which month do you normally take a holiday in?
- 3 Which is your favourite season in the year? Spring, summer, autumn, or winter? Why?

Working with words | Calendars and schedules

- 1 These graphs show busy periods in the year for three types of business. Work with a partner and match the businesses to the graphs.

delivering flowers selling houses trade fair industry

- 2 Now read these texts from people working in these businesses. Check your answers in 1 and answer these questions.

- 1 Which people have a similar schedule every year?
- 2 What is different about the real estate industry now?
- 3 Which days are very important in the flower delivery business?

Katrina Bieber works in the German Trade Fair Industry:

'60% of all major international trade fairs now take place in my country, and January to mid-May is the really busy period. So I can usually take my annual leave in June or July and then some more time off in the autumn before I start planning again for next year.'

Prescott Bowden runs a real estate firm in Atlanta, Georgia:

'People always think spring is a good time for selling houses, but you can't predict the market these days. For example, Christmas is the time when everyone has busy schedules, so you expect real estate to have a quiet period. But last year, December was one of our best months.'

Jayne Henry is a sales manager for a flower company:

'We promise to deliver flowers the same day so we have very tight deadlines. We also need to be sure we have the right amount of staff. For certain public holidays or Valentine's Day and Mother's Day we need about 80 people and five team leaders. During quiet weeks we only have about 10 full-time staff in the centre.'

3 Find word pairs from the texts in **2** by matching a word from A to a word from B.

A	B
tight _____	holiday
busy _____	period
annual _____	off
public _____	schedule
busy _____	period
quiet _____	deadline
time _____	leave

4 Complete these questions with words from **3**.

- 1 Do you have a busy _____ and a _____ period during the day?
- 2 Do you have any time _____ this month? When is your annual _____?
- 3 Many companies have _____ deadlines around Christmas. Is this true for your company?
- 4 What happens if a _____ holiday is at the weekend?

5 Work with a partner. Ask and answer the questions in **4**.

6 Whose schedule is this from **2**? Is she busy all week?

Wednesday 27th	Thursday 28th	Friday 29th
Final day for annual conference registrations	10 a.m. Open trade fair stand	Day off – Long weekend in Paris!
8 p.m. Dinner with Franco at 'Nara Sushi' at Friesenstrasse 70	2 p.m. Meet association members	

Don't forget!
1 Email this timetable to Franco.
2 Email a reminder to members about Thursday meeting.

7 Find four words or phrases in the schedule and note in **6** to match these definitions.

- 1 time off on Saturday, Sunday and one extra day (Friday or Monday)
- 2 a note to tell you to do something _____
- 3 a plan or schedule with times for each stage _____
- 4 meeting for a group of people once a year _____

» For more exercises, go to Practice file 12 on page 100.

8 Work with a partner. Talk about the following.

Enzo Hello, can I join you?
Giang Yes, please take a seat. My name's Giang Bai. How do you do?
Enzo My name's Enzo Matti.
Giang Is this your first time in Vietnam?
Enzo Yes, it is. I'm with a textile company in Italy. Here's my card.
Giang Thank you. Here's mine. So you're from Italy. That's a long way to travel. How long did your journey take?
Enzo Err, it took about forty-eight hours. I think. I came to Ho Chi Minh City last night, but I left Bologna two days ago. I flew to Milan and then to Shanghai. I had a day in Shanghai so I met some colleagues there yesterday.
Giang Were you on the ten o'clock flight last night?
Enzo That's right.
Giang Oh, we were on the same flight then!
Enzo Really?

35

Giang So how did you become a sales manager in textiles?
Enzo Well, my family was always in textiles. My father had his own company in Bologna and I worked for him.
Giang Why did you leave?
Enzo Well, I went to university and I studied Business Management. Then I wanted to work abroad, so I left the family company and spent time in the United States.
Giang So when did you join your current company?
Enzo In two thousand and three.

36

Anton OK. So we have a student for the summer job. Let's discuss the web editor position next. Who do we have?

Sandra There were lots of emails for this one, but there are only two people really. First of all, there's Monica. I spoke to her on the phone and she's very friendly. At the moment she works in publishing.

Anton Is she an editor?

Sandra Yes. She has a lot of experience in book editing, but she says she's good at editing websites because she does some in her free time for friends and small businesses.

Anton OK. That sounds like a possibility. What about the other person?

Sandra Here's his picture. Do you recognize him?

Anton Yes, who is he?

Sandra It's Roberto. He was the student on our summer placement last year.

Anton That's right. Roberto! I remember him. Very energetic! Really nice young man.

Sandra Exactly. Anyway, now he has a qualification in IT.

Anton But why is he applying for the web editor job? He doesn't have any experience in editing and he isn't very good at working on his own.

Sandra I know, but he liked it here so much last summer he wants a job. I think he's perfect for the position of web production assistant.

Anton Exactly. Let's offer him that and then invite Monica for an interview. I'd like to see the websites she worked on as well.

Sandra Sure. I'll send you the links.

Kasia Hi Bruno. It's Kasia here.

Bruno Hi Kasia. How are you?

Kasia Fine, thanks. Listen, we need to meet about the plan for staff to work from home. Can we arrange a meeting on Thursday with Dolores and Chen? Is two o'clock OK for you?

Bruno Sorry, I'm busy then. What about the morning?

Kasia OK. What time are you free?

Bruno Nine thirty is good for me.

Kasia I can't meet between eight and ten. I've got interviews.

Bruno Are you busy after that?

Kasia Dolores and I have an appointment with someone from the bank at twelve, so let's meet before that.

Bruno Is ten fifteen good for you?

Kasia Yes, a quarter past ten on Thursday is fine, but I don't know about Dolores and Chen. I think Chen has a factory visit in the morning.

Bruno OK. Can you call Dolores and I'll phone Chen?

Kasia Sure.

Bruno Thanks. Bye.

Interviewer How big is the Accor group?

Manager Well, we employ one hundred and seventy thousand people in nearly a hundred countries. And we have over four thousand hotels worldwide.

Interviewer So, very big.

Manager Yes, we are, but the hotel industry is very competitive – there are a lot of big chains out there.

Interviewer That's true. So, with so many competitors, how does Accor stay competitive?

Manager Well, one reason is that we are the only international group with hotels in every market segment. This means we can offer all our customers a wide choice. For example, Motel Six is a chain of budget hotels in North America. They offer the customer a cheap option. Then at the economy level there's the All Seasons brand in the Asia-Pacific region. You pay more at these hotels, but they offer very good service with friendly staff.

Interviewer What about hotels for the business traveller who wants more comfort and services?

Manager OK. This is the mid-range market segment. So, we're talking about hotels like Novotel. The quality at a Novotel hotel is very high with modern, up-to-date business facilities like meeting rooms and office services. Location is also important for the customer at these hotels so they are easy to find in city centres or at international airports.

Interviewer And what if money is no problem for the customer?

Manager Then you choose a Sofitel hotel. It's expensive, but it offers five-star quality and each one also offers the visitor something else. Because each country is different, every Sofitel hotel is different and gives the customer a special experience.

49

- 1 We can offer all our customers a wide choice.
- 2 They are low-price hotels and offer the customer a cheap option.
- 3 They offer very good service with friendly staff.
- 4 The quality at a Novotel hotel is very high with modern, up-to-date business facilities.
- 5 A Sofitel hotel is expensive, but it offers five-star quality.

50

1

- A Our competitive advantage is that we provide a better service.
- B What do you mean exactly?
- A Well, our staff are more experienced than our competitors' staff. They get six weeks' training before they start.
- B So they can give good advice to your customers?
- A Yes, that's right. And our staff are friendlier than other shops. We know our customers well because we often see them.

2

- B What about the products?
- A Well, when there's a new product on the market, we're always the first shop in town to stock it. Customers know that our products are more up-to-date. They come here first to see the technology.

2

- B What are your competitive advantages?
- C Well, the first one is the price. We offer lower prices than our competitors.
- B That's because you don't have any shops?
- C Yes, but also because we buy products in large quantities. We have thirty thousand cubic metres of storage space, so we have bigger stocks than all our competitors.
- B Is that an advantage for delivery, too?
- C Yes, of course. Because we have large stocks we provide faster delivery. We always deliver in two or three days. And we offer a wider choice – five thousand different products.

51

1

- A We have a special low price on this model this month. Only twenty-nine euros ninety-nine.
- B That's not bad.
- A And then you pay only seventeen euros fifty a month. That's for ten hours of calls.
- B Ten hours a month. I don't need ten hours.
- A Well, if you prefer five hours a month, it's only eleven seventy-five.

2

- A Is delivery free?
- B Yes, it is, if you order more than five hundred dollars of goods.
- A And if I don't?
- B Then there's a delivery charge of seven dollars fifteen cents per item.
- A So that's about thirty dollars for four items.
- B Yes, twenty-eight sixty to be exact.

3

- A That's two thousand, eight hundred and sixty yen, please.
- B I have a customer card.
- A OK, so that gives you a discount of one hundred and seventy yen today. So that's two thousand, six hundred and ninety yen.

52

Managing Director So, did you look at the two quotes for the website?

Javier Yes briefly. Err ... here they are.

Managing Director OK. How do they compare?

Javier For price, ITE is cheaper.

Managing Director Yes, so I see. Why is that?

Javier They're a smaller, newer company. It's two brothers. Weblines is older and it has about twenty staff.

Managing Director Are they better?

Javier The quality is similar. Weblines produces very nice sites, but ITE also does good work. The advantage of ITE is the two people have experience in the online marketing and sales industry. The disadvantage of Weblines is they don't usually work with online businesses.

Managing Director How fast can they do the work?

Javier There's no difference. They both need four months.

Managing Director Four?

Javier That's fairly normal.

Managing Director I see. Well, what do you think?

Javier Erm. I prefer ITE. They're cheaper, they're professional, but also easy to talk to. I like their work – it's more modern.

Managing Director Fine. Let's choose them.

Javier Good. I'll call them today.

Unit 10

53

1

A Right. So, is that everything?

B Erm, there's a small problem with my assistant. She wants more money, but I can't give her a pay rise.

A Oh I see. Can she do some overtime?

B Yes. That's a good idea!

2

A What's the matter?

B I have a really big problem. The Managing Director wants to reduce staff numbers in my department. So someone has to lose their job. But who?

A That's a difficult decision.

B Yes, it is!

3

A So, what's your final decision?

B I don't know. I can't decide.

A Why don't you ask everyone in your team?

B No. That's a bad idea. There are eight people so we'd get eight different opinions. We'll never find a solution that way.

54

Richard Morning, Adriana. How was your weekend?

Adriana Fine, thanks.

Richard Is Jorge coming?

Adriana Yes, but he's speaking to the team leader on line two at the moment. I think he was late again.

Richard What? Again?

Adriana That's three times this month.

Richard OK, let's start. How are things on production line one?

Adriana Marcio, the team leader, says they are still having problems because the line is slow.

Richard Didn't the new components arrive on Friday?

Adriana No, but the supplier says they are arriving later today.

Richard And when are you going to the factory in Recife?

Adriana Tonight. I'm leaving at six.

Richard So, is Marcio dealing with the new components when you're in Recife?

Adriana Yes. He's fine. He can organize the changes.

Richard Good. Who are you meeting in Recife tomorrow?

Adriana Pedro, the Line Manager, and the team leaders.

Richard So what are the problems in Recife?

Adriana The biggest problem is that production's slow. Pedro says the new components don't work well.

Richard Are these the same components we're waiting for?

Adriana That's right!

55

Richard Hello.

Adriana Hi, Richard. It's Adriana.

Richard How are things in Recife?

Adriana Not good, I'm afraid. The problem is bigger than we thought.

Richard Oh no! Not because of the new components? They were so expensive!

Adriana No, I know they were the most expensive solution, but they were also the best idea.

Richard So what's the real problem?

Adriana Well, Pedro says the new components are worse than the old components, but the team leaders say they are better, and I agree.

Richard So are you saying the problem isn't technical?

Adriana That's right. I think it's a personnel problem. Do you know that staff turnover in Recife is the highest? Our other factories are about thirty per cent lower.

Richard Wow. That is surprising. So the problem is the team?

Adriana No, not the team. It's the Line Manager. The biggest problem is Pedro. No one likes him.

56

Oh no. That's terrible

Really? How amazing.

Great. That's fantastic!

Wow. That is surprising.

I'm sorry. How disappointing.

Good. That's excellent news.

57

Director So. Did you read the report?

Line manager Yes.

Director And? What's your opinion?

Line manager I think it explains some of the problems, but not all. For example, we have the highest prices, so in my opinion that's one reason. But some customers also say that our delivery times are slow.

Director I agree. And it isn't just delivery that's slow. Look at the figures for the call centre. We have the longest call times. Do you think they need more training?

Line manager I don't think so. All the staff get regular training. Maybe it's a problem of teamwork. I think we should make them feel part of a team where people like working.

Director Hmm. I'm not so sure.

Jenny OK. I'd also like dinner in my room. Do you have room service?

Greta Hello, Greta Helsing speaking.

Barati Hi Greta, it's Barati in Kathmandu.

Greta Oh, hi Barati.

Barati Hi. Thanks for your email about the Palmarosa oil. We've sent it and it's going to arrive on the twenty-seventh. I know you have a tight deadline, but we've had a few problems here.

Greta Don't worry. The twenty-seventh is OK. I can change the schedule by a week.

Barati Have you taken lots of orders for the soap?

Greta Yes, there's been a lot of interest.

Barati Great. Have you seen some of the other products on our website?

Greta Yes, I have. They look really interesting.

Barati You should come and visit us sometime. Have you ever been to Nepal?

Greta No, I haven't, but I'd love to!

64

Greta At the moment, the schedule is about a week late. The situation is that the raw material from Nepal has just arrived and we've already taken it to the warehouse. So the aim is to get the soap on the shelves by Valentine's Day.

Soledad But what's the deadline for this? I know we need it for February the fourteenth, but what date is the launch?

Greta We plan to launch it on January the twentieth.

Soledad But Martin, how much time do we need for production?

Martin Production isn't a problem. But we haven't got a final package yet.

Greta I know. I've spoken to the designers again today. We'll have the packaging by the thirty-first of October.

Martin OK. So we'll have the final product by the end of December?

Greta That's right. Around the twentieth.

Soledad Why don't we deliver the product at the beginning of January? The shops are going to want it earlier than the twentieth.

Greta OK. Then, let's start delivery from the warehouse on January the second. Is everyone happy with that date?

Martin / Soledad Fine. No problem.

Greta Right. So, to summarize, I'm going to call our packaging people – again. And we're going to tell clients they'll have the product by January the ...?

Soledad Let's say January the fifth. I'll tell them. And I'm going to prepare some press releases as well.

Greta Great.
